

How to use this template: Print two (2) copies on white paper. Trim both copies straight along the bottom (dotted line) edge. Tape the cut edges together to form a 10" square pattern. Position the pattern in the center of a 12" X 12" Styrofoam™ square (1" in from all sides), and pin in place. With a craft knife, cut along all solid pattern lines, 1/2" deep. Save the paper pattern pieces for cutting the fabric. Retrace the cut lines on the Styrofoam with black marker.

A = red print cloth B = gold print cloth C = Aida cross stitch fabric D = inkjet printed image fabric Border and back = green print cloth

Use this pattern below as a guide for your cross stitch panels, or transfer the words to fabric panels and paint with fabric paint.
